

## Hubbard Hall Theater Arts and Sciences Labs

**Project name:** Technology Refresh (9) Buildings

**Project Date:** 2009

**Location:** Texas Woman's University  
**Address:** 1200 Frame Street

Denton, Texas 76201

**Company:** TWU

### **Project overview**

TWU offers a comprehensive catalog of academic studies, including baccalaureate, master's and doctoral degrees. Now in its tenth decade, the University has grown from a small college to a major university. TWU is the largest university primarily for women in the United States, with the main campus in Denton and health science centers in Dallas and Houston.

TWU began a technology upgrade of their campus in 2009. All of these projects received a Category 6 cabling solution to enhance the technology upgrades that were performed.

### **ABLE solution**

ABLE Communications, Inc. responded to a competitive bid solicitation and was awarded (9) buildings for the scope of work to provide a Structured Cabling System as specified by the Owner.

ABLE Communications installed a Panduit/CommScope Category 6 solution for the Data communications based upon the Owner's specifications. This solution provides a warranty on materials and workmanship from ABLe Communications, Inc.

The scope of work included:

- All cabling and termination components

- The horizontal cabling within a new j-hook pathway
- Workstation termination boxes as applicable
- Distribution patch panels as required
- Label of all installed media as approved by owner
- Testing and certification of all media to ensure proper installation

### Product Solutions
