Dates: 2005-2008

Location: TXU Energy Plaza

Address: 1601 Bryan Street
Dallas, Texas 75201

Company: Energy Future Holdings

Project overview

Energy Future Holdings Corp., formerly TXU Corp., is a Dallas-based privately held energy company with a portfolio of competitive and regulated energy subsidiaries. TXU Energy, Luminant and Oncor, EFH's primary businesses, serve the high-growth Texas electricity market, which is one of the world's largest and among the nation's most successful competitive markets.

EFH represents the transformation of TXU Corp. into a private company. A group of investors led by Kohlberg Kravis Roberts & Co., TPG and Goldman Sachs Capital Partners completed to acquisition of TXU on October 10, 2007, setting a new direction that will make EFH more customer centered, innovative, and technology driven to better meet Texas' growing and diverse energy needs. EFH and the investor group share the goal of making Texas the nation's most responsible, state-of-the-art electricity market and EFH the model 21st century power company.

ABLE solution

ABLE Communications, Inc. has provided ongoing network support for TXU since 2005. For the past 2 years, EFH (formerly TXU Corp.) has been renovating floors located in the Energy Plaza building in Downtown Dallas. Each of the renovated floors is approximately 24,000 square feet in size.

The Structured Cabling System is a Systimax solution utilizing category 5-E for the copper connectivity and multimode 50um armored cable for the fiber connectivity.

**ABLE Communications received the Gold Star Supplier of the year award in 2008.
