

## Trend Micro, Inc.

**Project name:** Trend Micro Inc. Regional Office Project

**Start Date:** August 2003

**Location:** Arlington, Texas

**Address:** 500 E Border Street  
Arlington, Texas 76010

**Company:** Trend Micro, Inc.

### Project overview

Trend Micro is a global leader with over two decades of expertise in endpoint, messaging and Web security. With operations globally, Trend Micro is focused on innovating smarter security solutions that protect against a wide range of insidious threats and combined attacks including viruses, spam, phishing, spyware, botnets, and other Web attacks, including data-stealing malware.

Their goal is to provide their customers with the most timely, most effective threat protection with the least amount of complexity, thus ensuring: secured data and reputation, reduced administrative costs, business continuity despite rapidly increasing and ever-changing security threats.

With the introduction of *Trend Micro™ Smart Protection Network*, a next-generation cloud-client content security infrastructure, they beat conventional methods by combining Internet-based technologies with smaller, lighter weight clients to stop threats *before* they reach users.

An extensive global network of data centers combined with automated and manual threat correlation systems, enable us to provide customers with a real-time feedback loop of round-the-clock threat intelligence and protection.

Our vision is to create a world safe for exchanging digital information by offering a comprehensive array

of customizable solutions to enterprises, small and medium businesses and individuals. **Trend Micro. Securing your Web World.**

### ABLE solution

ABLE Communications, Inc. was selected by *Trend Micro, Inc.* to provide the Voice & Data Cabling Infrastructure, Server Racks and Overhead Bracing Support Structure for this regional office.

The Structured Cabling System is a Panduit PAN-NET solution utilizing all Category 6 UTP for all copper connectivity. All cabling infrastructure was placed in 13 Data Center Server Racks and Distribution Cabinets provided and installed by ABLe Communications, Inc. This is truly a "Showcase" installation. ABLe Communications, Inc. provides ongoing maintenance of this facility. Due to Trend Micro's explosive growth, an additional floor is currently under construction. Due to the "High Quality 7 Professionalism" demonstrated by ABLe Communications, this project will be negotiated directly and not let for bid.
